

Jon W. Allan

Jon is Executive Director of Environmental and Laboratory Services for the Consumers Energy Company, a combined electric and natural gas energy utility. He holds responsibility for the utility's environmental compliance strategy, programs and policy development related to air quality, climate change, water use and quality, impact assessment, waste management and remediation activities. He has been with the company for fifteen years. He has worked on many environmental policy issues within the industry and is a past chairman of the Michigan Chamber of Commerce's Environmental Quality Committee. Jon also served as the utility representative to the Water Management Working Group for the Great Lakes Compact negotiations. He served for five years as co-chair of Michigan's Groundwater Conservation Advisory Council, and currently serves on the Environmental Advisory Council to the Michigan Department of Environmental Quality, the Michigan Governor's Climate Action Council and the Midwest Governors Greenhouse Gas Reduction Accord Advisory Committee. Prior to joining Consumers Energy Jon worked for the Institute for Environmental Toxicology at Michigan State University. He has taught a number of courses over the years in natural sciences and ecology, environmental impact assessment and marine biology at Michigan State University, Lansing Community College and for the Philadelphia Academy of Science. He holds an undergraduate degree in Fisheries and Wildlife, a Masters Degree in Zoology (Aquatic Ecology) from Michigan State University, and completed substantial additional post-graduate work in Environmental Policy and Law at MSU. He is a published author on topics related to wetlands, stream ecology and impact assessment.
